

PresStation-001

Touch Screen Compatibility Chart

The Miranda PresStation can be used in conjunction with a USB touch screen. Many touch screens are available but only a few have the correct interfaces and features to be compatible with the PresStation.

PresStation Touch Screens must be:

- USB
- Capacitative Screen
- 3M/Microtouch Driver Interface

The following two models have been tested by Miranda

17" USB Capacitative Touchscreen.
